

Importers of heavy plant & machinery

United Equipment Co. (UNEC) Limited is the official agent in Malta for renowned brands such as Olympian, Dulevo, Sandvik, Gomaco, Bolzoni Auramo, Schaeff Terex, Rotair, Venieri, Double Coin Truck Tyres, DEC, Kaup, Unil Opal and GreenChem.

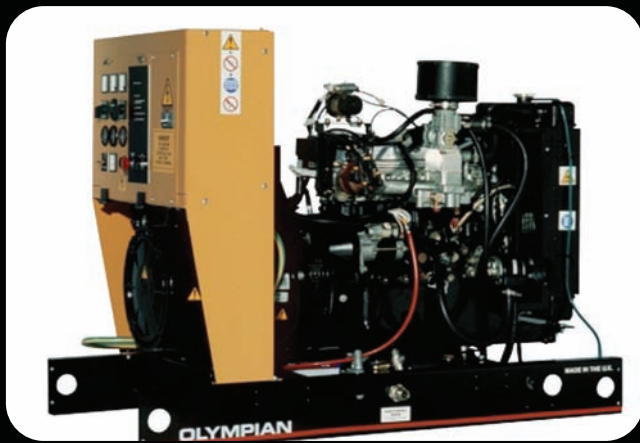

Importers of heavy plant and machinery

OLYMPIAN™

Olympian generator sets are designed, engineered, and manufactured for optimal performance at an ISO 9001 Caterpillar facility. Prime power or standby service, diesel fuel, propane, or natural gas, Olympian generator sets deliver dependable, clean, and economical power—even in the most demanding conditions. Olympian can meet the needs of any application, with a wide range of configurations and optional equipment. Before Olympian generator sets go to work they prove themselves in our rigorous test process. All major components are tested individually then the entire units are tested for safety and operation at 100 percent of rated load.

• **Generators - Power Generation**

DULEVO
INTERNATIONAL

Dulevo International S.p.A. manufactures machines for industrial cleaning. Thanks to its technological quality and commercial dynamism, the company has established as the leading supplier. Dulevo creates machines that are durable, reliable and eco-compatible, to design innovative systems to filter dust during collection and to adjust motors to increasingly lower emissions. Dulevo are concentrated on four lines of production: road sweepers, industrial sweepers, small commercial sweepers and scrubber dryers. In turn each individual line presents a wide range of models, fittings and capacities for all work requirements.

• **Sweepers • Industrial Sweepers • Road Cleaning Equipment • Auto Scrubbers-Driers**

SANDVIK

Sandvik formerly known as Rammer is the world's leading supplier of breaking technology: heavy-duty rock breaking hammers, silenced hammers, **cutter crushers, pulverizers, pedestal boom systems** for the demolition, recycling, mining, construction and quarrying sectors. Sandvik is widely regarded as the technological leader in the **hydraulic hammer** sector. The company has continued this tradition of technological advancement with the introduction in recent years of a number of new systems and solutions. These include:

Hammers – Modular design allows these advanced hammers to be better matched to individual customers' power, performance, productivity and application needs.

Hammers – Benefiting from a massive trapezoidal tool, award-winning compact in hammers are practically maintenance-free, featuring a membrane-type accumulator and non-geared tool bushing, and represent a giant leap forward in hammer technology.

• **Breaking, Excavation and Crushing Units • Hydraulic Hammers • Cutter-Crushers • Pulverizers • Booms**

GOMACO

GOMACO Corporation manufactures curb and gutter machines, concrete slipform pavers, placer/spreaders, trimmer/placers, cylinder finishers, canal machinery and accessories ideal for any concrete construction project.

• **Paving and Road Building Machinery • Curb and Gutter Pavers • Placer/Spreaders • Trimmer/Placers • Texture/Cure • Finishers • Canal**

The BOLZONI AURAMO Group is renowned for the widest product range in the market, supplying equipment for general handling bulk products, as well as customer-oriented solutions for special applications. • **Warehouse and Lifting Equipment** • **Hand Pallet Trucks** • **Lift Tables** • **Lift Truck Attachments**

Terex Group operations are bundled in the Construction & Mining Technology (CMT) division. Schaeff Terex is the specialist for Hydraulic Transverse Cutting Units (TCUs) producing standard machines, individual as well as tailor-made solutions for unusual applications. Cutting Units are available with a wide range of cutting heads and hydraulic motors suitable for most applications from heading in soft to medium hard rock formations as well as specific solutions. • **Cutting Units** • **Hydraulic Transverse Cutting Units** • **Tunnelling and Mining Equipment**

A vast range of portable compressors capable of meeting the highly diverse and demanding needs of professionals in the field. With more than forty years of ongoing experience, Rotair compressors feature a new and highly appealing design, and are both compact and powerful.

The VF VENIERI S.p.A. work philosophy is, as ever, based on constant, ongoing research into the new solutions that give the earth moving machines all the features that have created the identity and high status they now enjoy in every market: reliability, operational stability, comfort, safety and maximum productivity.

Importers of heavy plant and machinery

DOUBLECOIN

The Double Coin is a significant worldwide supplier of truck tyres and has earned an excellent reputation within the transport industry for its quality. Double Coin engineers have recently integrated the advanced TECO (Tyre Entirety Construction Optimization) theory and special adhesive technology to even further improve tyre performance and manufacturing quality. Double Coin's commitment to quality was attested in September 1996 when they successfully achieved ISO 9002 international quality accreditation.

DEC

DEC S.p.A. is renowned for the production of industrial machines. With more than thirty years of experience and technical knowledge DEC is a leading manufacturer of washer/dryers and electric tractors.

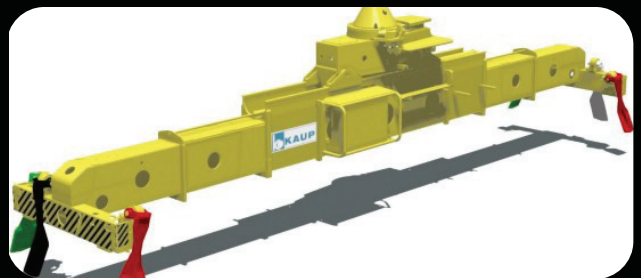

Unil
LUBRIFIANTS
opal

Unil Opal's main activity is to formulate, produce and market a wide range of lubricants for the exclusive needs of professionals working in various fields of industry, automotive, agriculture, transport, construction and marine. Always at the forefront of performance, Unil Opal designs high technology products, thus meeting the most stringent requirements needed by the latest modern equipment. Unil Opal has the ISO 9001 certification, which guarantees a constant quality of its products and services and also a permanent technological innovation. The products thus meet with the standards and specifications of the largest worldwide manufacturers and requirements recognised by international organisations (ACEA, API).

KAUP

Kaup are one of the leading manufacturers of fork lift truck attachments in Europe. Innovation is a firm part of the Kaup tradition. Kaup specialise in the design and manufacturing of forklift truck attachment, sideshifters, fork positioners, clamps, crane jibs, spreaders and stationery handling equipment. Kaup know-how has played a prominent role, today being capable of performing the widest variety of handling tasks.

GreenChem

GreenChem is a European producer and supplier of AdBlue, the solution which is needed for the new trucks of practically all heavy duty vehicle manufacturers. With the use of AdBlue, the emission standards Euro 4 and Euro 5 will be met.
